

Time to Live programme three outcomes

The Time to Live programme is built around three key outcomes, with improved outcomes for carers at the heart of the scheme.

Delivery Partners are expected to demonstrate how their local Time to Live scheme contributes to these high-level programme outcomes.

- Carers have more opportunities to enjoy a life outside their caring role
- Carers feel better supported to sustain their caring role
- Carers and the people they care for experience improved wellbeing

Time to Live Delivery Partners reference these outcomes within their year-end reports to Shared Care Scotland, including clear examples of how the Time to Live scheme has contributed to them.

The overall impact against these outcomes is then reflected in the final impact report submitted to the Scottish Government.
